Busy Bee Home Maintenance Tips

Winter weather is coming. Start now and be prepared. Consider doing the following:

1. Buy foam insulation to cover your water spigot and any other above ground water pipes. Store your hose during cold weather.
2. Have a licensed HVAC technician service and check your heater to identify problems early.
3. Remove sun and bug screens from your windows to clean. Do not re-install your sun screens until spring to allow for the sun to help warm your home. While you are at it, clean the window track to allow for easy opening and closing.
4. Change your smoke detector batteries.
