

FAMILY FEUD

AJPR Edition

The challenge of this game is to come up with the most popular answers to each question. The answers to the questions provided are unique in that they aren't factual "answers" at all. They are based on the answers provided by a survey completed with our AJPR kids!

What's Included:

- Instructions
- 18 Question Cards
- Answer Sheet
- Strike Markers

What You Will Need:

- Pen & Paper to keep score
- Board (optional) to present question & answers when given

Answer Sheet Format:

You will read this statement in bold to the players

1. Most popular answer (# of points)
2. Second popular answer (# of points)
3. Third popular (# of points)
4. Fourth (# of points)
5. Fifth (# of points)

The number listed in the parentheses is how many points the answer is worth. Not every question will have 5 answers. Some answers have been condensed into a broader answer. It is up to your discretion if you believe an answer called is correct. Anytime a correct answer is called, you can reveal it on the board and give the team the amount of points listed. If it is incorrect, that is when the team will receive an "X".

Don't let the players see the answer sheet!

Instructions for playing Family Feud

1. One person will need to be the host to read off the questions and post the answers. Divide the rest of your household into two teams.
2. One member of each team faces the other in a face-off as the host reads the question off the game board.
3. The team that buzzes in with the correct answer first receives control of the board and has the option of playing or passing control to the other team.
4. The team that has the control tries to reveal all of the correct answers to the question before receiving three strikes.
5. If the team receives three strikes without clearing the board, control is passed to the other team.
6. The team that now has the control is able to give one answer in the hopes that it is found on the board.
 - If it is, points are added to the team's score.
 - If not, the other team gets the points.
7. Points are collected as each team finds its answers to the question on the board.
8. Continue the game repeating steps two through seven.
9. Each team tries to collect the most points. The team with the most points wins the game!
